PROFESSIONAL SUMMARY

Highly motivated B.Tech Computer Science and Engineering student (Class of 2027) with a strong foundation in Python and data manipulation. Passionate about problem-solving and actively transitioning into Data Analytics and Engineering roles. Demonstrates algorithmic proficiency through regular LeetCode challenges and practical project development ranging from data analysis to system automation.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (CSE) 2023 – 2027

Arya College of Engineering | Expected Graduation: 2027

TECHNICAL SKILLS

Programming: Python, SQL, C, C++

Libraries: Pandas, NumPy, Matplotlib, speech_recognition, pytsx3

Tools & Platforms: Git, GitHub, VS Code, Salesforce

Core Competencies: Exploratory Data Analysis (EDA), Data Visualization, Predictive Modeling, Statistical Analysis, Data Storytelling, Automation

SOFTWARE PROJECTS

Netflix Content Data Analysis | *SQL*

- Conducted deep-dive data analysis on Netflix's content catalog utilizing advanced SQL techniques, including complex aggregations, subqueries, and grouping, to identify content trends and strategies.
- Extracted actionable insights by categorizing titles, analyzing global content distribution across different ratings, and tracking the growth of movies versus TV shows over time.

Superstore Sales Data Analysis | *Python, Pandas, Matplotlib*

- Conducted exploratory data analysis (EDA) on retail data utilizing Pandas to clean, aggregate, and process complex datasets.
- Engineered data visualizations using Matplotlib to uncover actionable business insights, specifically identifying profit margin disparities across regional and technological sub-categories.

Random Password Generator | *Python*

- Engineered a customized password generator utilizing Python's random and string libraries.
- Implemented logic to create highly secure, randomized alphanumeric strings to enhance user credential security.

CODING PLATFORMS & ACHIEVEMENTS

LeetCode

- Regular practice of data structures, algorithms, and SQL challenges to sharpen analytical and coding skills.
